The following action is in response to the amendment received July 27, 2007.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the specification, paragraph [0001], before "This", -- This is the national stage of PCT/CN03/00945, filed November 10, 2003. – has been inserted.

In line 25 of claim 1, before "external", "an" has been changed to – said --.

The specification has been amended to refer to the parent PCT application. The above change to claim 1 has been made to clarify antecedent basis, since the external force member was already defined in line 3 of the claim.

Allowable Subject Matter

Claims 1-11 and 13-20 are allowed. Claims 1-3, 15, 4, 5, 19, 20, 6-8, 14, 9, 17, 18, 10, 11, 13 and 16 will be renumbered for printing as claims 1-19, respectively.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a coupling as defined in claim 1 having a coupling disk coupled to an out-extending shaft, a disk coupled to an external force member, a first concave-convex assembly having a first helicoid engaging surface, a second concave-convex assembly having a second helicoid engaging surface, a force generating source member between the coupling disk and the disk, an external force association member between the first concave-convex assembly and an external force member wherein, upon action of the force generating source member, the disk is coupled with the out-extending shaft via the coupling disk so that the external fore member and the out-extending shaft are coupled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Response to Amendment

Applicant's amendment received July 27, 2007 overcomes the objection to the specification set forth in the previous Office action. Accordingly, the objection is withdrawn.

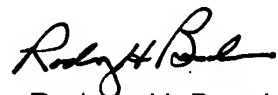

The amendments to the claims overcome the previous rejection under 35 USC 112, 2nd paragraph. Accordingly, the rejection under 35 USC 112, 2nd paragraph, is withdrawn. Since the claims now distinguish over the prior art of record, the rejections under 35 USC 102(b) and (e) are withdrawn.
